Job Description: Agronomy Intern

Working Conditions:

- Internship Employment Hourly Wages
- Hours: 40-hour weeks, Monday through Friday. Nights and weekends during harvest may be required.
- The Agronomy intern is based out of Middleton or in an IP Bean related location (Breckenridge or Marlette).

Supervision: Reports to Agronomy representative. Facility Manager provides additional direction.

General Description: The MAC Agronomy internship is designed to provide a real-life experience for students to gain exposure in working in the application of crop/soil sciences, as well as a grain trading office. Experience includes a variety of different tasks, with a goal to cross-train an intern to benefit from as many different experiences as possible through hands on crop scouting and interaction with producers and experts in crop production. We also try to offer learning opportunities directly related to the career interests of each individual intern.

Scope of Responsibilities & Job Requirements

- Participation in summer long merchandising experience
- Fertilizer blending and delivery
- Help with agronomy sales and support
- Fertilizer unloading and storage managements
- IP Soybean scouting, assessment and reporting or other scouting as directed; communication of results to grower
- Working with Agronomy team, intern will interact with and make recommendations to growers
- Soil sampling
- Special projects for agronomy team and management as needed
- Some exposure to plant operations
- Other duties as assigned

Desired Skills/Competencies

- Demonstrate strong verbal and written communication skills
- Motivation to learn new skills and information
- Organizational and attention to detail skills
- Ability to walk long distances and work in a variety of conditions
- Strong customer service skills
- Pursuing a bachelor's degree in agricultural related discipline
